Disclaimer:

Quotations

All quotations for work will be provided based on the information given to Green Home Electric by the customer. Any variations (variations shall include additions, omissions or substitutions to the originally agreed work, fittings and fixings, etc.) to the work following the issue of the quotation and prior to commencement of work shall result in a revised quotation being issued for acceptance.

For variations after work has commenced, a fixed price to cover the variation shall be agreed between Green Home Electric and the customer and added to the final invoice.

In the event that requirements change due to insufficient information having been provided, defects found in existing installations, etc. the customer will be liable for any additional expense incurred.

Quotations shall remain valid for acceptance by the customer for a period of one calendar month following the issue of the quotation and work is to commence within two calendar months from the date of the quotation else a new quotation will be required.

Estimates

Estimates are provided on a best endeavors basis only and, unless a fixed price quotation (see above) has been provided to the customer, work will be charged based upon the price of parts provided by Green Home Electric plus labor which will be charged by the hour or part thereof and may include time taken to research, source and purchase any materials provided.

Unforeseen Costs

The customer shall be liable to meet the cost of any additional work, services or fittings that need to be provided to rectify any event or situation which arises during the course of the works that are unexpected or are beyond Green Home Electric's control. Green Home Electric cannot be held responsible for such events or situations.
