February is Black History Month, a time to celebrate Black stories and achievements. Diverse perspectives drive innovation around the globe and many of the cutting-edge discoveries in clean energy can be attributed to Black Americans.

Annie Easley was one of the first African American computer scientists to work at NASA. She was considered a “human computer” because of her ability to perform complex calculations by hand for the majority white engineering staff.

Annie’s calculations paved the way for early alternative energy endeavors that analyzed wind and solar energy projects and hybrid vehicle batteries. She was also a champion for equal employment opportunity and challenged discrimination in the workplace.

For more stories like Annie’s, go to [alliantenergy.com/cleanenergyfutureblog](http://alliantenergy.com/cleanenergyfutureblog).

## Take the February PowerHouse Challenge: **Give your house a hug**

It’s the perfect month to give your house a hug by sealing up air leaks and adding insulation where needed. According to [energstar.gov](http://energstar.gov), you could save up to 15% on heating costs!

Visit [powerhousetv.com](http://powerhousetv.com) for challenge details.

## Energy assistance offers peace of mind

Are you struggling to pay your energy bills this winter? Don't wait to reach out. Alliant Energy wants to help you find and apply for available resources to make sure you don't miss a payment. That's why we've compiled a list of local and national assistance options on our website. Start here to find resources and peace of mind.

## Show your home some love with energy-efficient products

The Alliant Energy® Marketplace is your one-stop shop for retail discounts and instant rebates on smart, energy-efficient products that your home will love. Shop deals on smart thermostats, advanced power strips, LED lighting and more.

Visit [love.alliantenergymarketplace.com](https://love.alliantenergymarketplace.com) today.

How do you use your **energy?**

## Bromann uses her energy to help build communities at ReStore

How do our customers use their personal energy for good? Rachel Bromann uses her energy to help build, rehabilitate and repair safe and affordable homes through her work at Habitat for Humanity's ReStore in Cedar Rapids. "Affordable housing is at such a shortage around the country," she says. "Sometimes when I've had a rough day, I look at how much of a house I helped build that day."

Alliant Energy works to make a difference in the communities we serve. We celebrate people who are putting their energy to work to make their community better. Read more about Bromann and other local heroes in our blog at [alliantenergy.com/rachelbromann](https://alliantenergy.com/rachelbromann).
